SUMMARY

Unreal Engine 5 developer with hands-on experience at EXR School of Game Dev since January 2026, building levels, gameplay mechanics, enemy AI and game UI in C++ and Blueprints. Currently designing levels for Breach Point, a multiplayer VR shooter for Meta Quest 3 in Unreal Engine 5.3.2. Background in professional software development (Python, Odoo, 2022–2026), bringing strong debugging, version control and team delivery skills.

SKILLS

Unreal Engine 5: C++, Blueprints, gameplay programming, level design, enemy AI, game UI, character movement, lighting, inventory systems, prototyping, VR (Meta Quest 3)
Software: Python, JavaScript, Django, Flask, REST APIs, PostgreSQL, MySQL, Odoo, Git
Languages: English, Hindi, Malayalam

EXPERIENCE

EXR School of Game Dev — Malappuram, Kerala (Hybrid) Jan 2026 – Present
Unreal Engine Game Developer (Freelance) Jul 2026 – Present
Unreal Engine Game Developer (Internship) Jan 2026 – Jun 2026

- Designed levels and implemented gameplay mechanics for Unreal Engine 5 projects.
- Built game UI and character movement systems using C++ and Blueprints.
- Implemented enemy AI and gameplay logic for interactive game systems.
- Prototyped and iterated on gameplay features with the development team.

Odoo Developer — Freelance (Remote) Dec 2023 – Oct 2026

- Delivered Odoo development work for clients, managing requirements and delivery independently.

Odoo Developer — Odox SoftHub LLP, Cyber Park, Calicut May 2022 – Dec 2023

- Developed Odoo ERP features in Python with PostgreSQL in a team environment, using Git for version control.

PROJECTS

Breach Point — multiplayer VR shooter (team of 3) UE 5.3.2 · Quest 3

- Level designer on a standalone multiplayer VR shooting game for Meta Quest 3.
- Own project documentation and compile the team's monthly progress reports.

Guardians of Ananthankaadu — level designer (team of 4) Unreal Engine 5

- Designed and lit a forest environment that guides players to a hidden temple.
- Built the user interface and a functional inventory system. Video

Crystal Quest — solo project Unreal Engine 5

- Built an adventure game end to end: enemy AI, traps and interactive gameplay elements.
- Designed the levels, environments and lighting, and built the game UI. Video 1 Video 2

EDUCATION

Unreal Engine Game Development — EXR School of Game Dev 2026
Python Django — Avodha Institute, Kochi 2019
B.Sc. Computer Science — University of Calicut 2015 – 2018
